

## Testimonials

"When I got the check in the mail I said Thank You Jesus, I feel like this was such a blessing. I am going to use it to pay my co-pays for my breast cancer treatments, so I can stop getting all those phone calls"

~ Ida

I'm most grateful for the help I received from It's a Breast Thing at my most darkest hour - I used a portion of the money for transportation & the biggest for eye glasses that I needed and couldn't afford. It's wonderful to have an organization that helps us with limited income.

~ Amy

My experience with It's a Breast Thing has been the best in the world! As the only provider for my family I felt "useless" when I couldn't work and make a nice holiday for my kids. Dealing with cancer is hateful and really cruel, it takes so much away from you personally and financially! With your help you gave me a great hope that there are people that have good hearts and understanding of "Need". That one gesture of love can give a person a reason to fight to "live". I can't say "THANK YOU" enough!

~ Rosa

"It was so helpful, it helped me with meals, I got some clothes I needed and helped to pay some bills. This was so wonderful, it was a gift from God. When I am done with all this I want to help other people going through this."

~ Loretta

## Need Assistance?

**Do you or someone you know need financial assistance with the challenges of treating breast cancer?**

***It's a Breast Thing* may be able to help....**

Serving patients that reside AND receiving treatment in the Mid Michigan area.  
For listing of counties refer to [www.itsabreastthing.org](http://www.itsabreastthing.org)

## It's a Breast Thing helping...

"I was thrilled, this really took a load off my back. I was getting a lot of bills from my treatments. I used the money to get to doctors treatments and I paid bills I owed."

~ Mary

"By the time we received the grant, we were not sure how we would be able to continue getting to the treatments as we can't drive. We had already gotten behind on our electric bills. Adding more stress to an already devastating situation. The grant from It's a Breast Thing relieved many fears of possibly not getting to future appointments. It truly may have been a "Life Saving Gesture" by all the fine people at It's a Breast Thing"

~ Gloria

## The Mission of It's a Breast Thing

is to enrich the lives of local breast cancer patients on their journey to better health.

It's a Breast Thing Celebrating 10 Years with Past Calendar Girls

### We do this through:

- grants to patients in Mid Michigan who have unmet needs related to their breast cancer treatment;
- fundraiser first Tuesday in October showcasing the latest information on breast health, breast cancer prevention and treatment;
- a themed bra decorating contest at the event;
- a calendar with the contest winning bras modeled by local breast cancer survivors;
- establishing partnership with local providers of those in treatment for breast cancer.
